Contents:

### **about deprecate**

---

The deprecate library provides decorators and primitives to support API deprecation and experimentation.

The goal is to support rich and documenting deprecation of API's as projects move towards new needs.

**Basics**

---

TODO!!

### Api

---

Based on [https://wiki.python.org/moin/PythonDecoratorLibrary#Generating\\_Deprecation\\_Warnings](https://wiki.python.org/moin/PythonDecoratorLibrary#Generating_Deprecation_Warnings)

`deprecate.deprecated(func)`

Mark deprecated functions with this decorator.

Attention! Use it as the closest one to the function you decorate.

## **Indices and tables**
